Dear Business Partner:

Due to the evolving situation with COVID–19 (coronavirus) and in an effort to protect staff, customers, and business partners, the RMV requires anyone scheduled for a CDL road test to bring and wear a mask or face covering during the road test. Those without a mask or face covering will not be permitted to take a road test.

While the RMV has cancelled all passenger and motorcycle road tests through May 4, CDL road tests are still being conducted by State Police. For Commercial Driver information during the State of Emergency, visit the RMV’s COVID–19 page.

In keeping with recommendations from the Massachusetts Department of Public Health (DPH), the RMV has also adopted enhanced cleaning practices for its facilities, purchased additional contactless hand sanitizer dispensing stations, issued anti–viral disinfectant wipes and individual–size hand sanitizers to certain employees, and expanded areas that are being disinfected.

Have Questions?
For the latest information on RMV services and the RMV’s response to COVID–19, please visit COVID–19 information. Contact us at RMVATLASSupport@dot.state.ma.us with additional questions.

Thank you for your cooperation and partnership.
